

Refugees

Em/A x 3 C/Em

**Aren't we all refugees  
Lost in the wish of Peace  
Aren't we all refugees  
In our world**

Most People wanna live -  
In Love Peace and harmony  
They wanna Love - they wanna give  
they wanna live in Responsibility  
Eye for an eye - Stone for a Stone  
This is for sure not the Message of god  
But I know that we all want the same  
to live in a world without any hate

**Aren't we all refugees  
Lost in the wish of Peace  
Aren't we all refugees  
In our world**

So Brothers and Sisters hear to my Voice  
Stand up for Love 'cause we got no Choice  
Stand up for Freedom - for humanity  
Give yourself a Chance - a world Full of Peace  
Open all borders - away with your pain  
Resist all the weapons - just Love in your hands  
we got the power - the power of Love  
To Save and To change what we've nearly destroyed

***Refrain***

***We're getting manipulated  
Till we are real frustrated  
Artificial pain in our veins  
Is driving us insane***
